International Journal of Industrial Ergonomics, 11 (1993) 349–350
Elsevier

Author index volume 11

(The issue number is given in front of the page numbers)

Ahn, B., *see* **Park, K.S.** (4) 301–312
Almond, G.C., *see* **Hoffmann, E.R.** (2) 83– 98
Anand, S., *see* **Mital, A.** (1) 67– 71
Authier, M. and **M. Lortie**, Assessment of factors considered to be important in handling tasks by expert handlers (4) 331–340

Bernard, T.E. and **M.F. Foley**, Upper acceptable surface temperature for prolonged hand contact (1) 29– 36
Bishu, R.R., W. Wang and **A. Chin**, Force distribution at the container hand/handle interface using force-sensing resistors (3) 225–231
Brouwer, M., *see* **Keyserling, W.M.** (1) 51– 65

Chin, A., *see* **Bishu, R.R.** (3) 225–231
Cornelius, K.M., *see* **Hamrick, C.A.** (1) 13– 18

Dawson, N.J., P.M.N. Hill and **S.J. Legg**, Test of a quick-don wet immersion suit for off-shore use (4) 321–330
Duchon, J.C. and **T.J. Smith**, Extended workdays and safety (Review article) (1) 37– 49
Duribreux, M., *see* **Kolski, C.** (2) 125–134

Eklund, J., *see* **Lindberg, M.** (3) 267–276
Emanuel, J.T., *see* **St. John, D.** (3) 249–256
Emanuel, J.T., *see* **Tayyari, F.** (3) 173–179

Fogleman, M.T., A. Freivalds and **J.H. Goldberg**, An ergonomic evaluation of knives for two poultry cutting tasks (3) 257–265
Foley, M.F., *see* **Bernard, T.E.** (1) 29– 36
Frantz, J.P. and **J.M. Miller**, Communicating a safety-critical limitation of an infant-carrying product: The effect of product design and warning salience (1) 1– 12
Freivalds, A., Preface to Special Issue on 'Carpal Tunnel Syndrome' (3) 171–172
Freivalds, A., *see* **Fogleman, M.T.** (3) 257–265
Freivalds, A., *see* **Lin, C.** (3) 233–242
Frisk-Kempe, K., *see* **Lindberg, M.** (3) 267–276

Galinsky, T.L., *see* **Putz-Anderson, V.** (1) 19– 28
Goldberg, J.H., B.K. Leader and **C. Stuart-Buttle**, Medical logging and injury surveillance database system (2) 107–123
Goldberg, J.H., *see* **Fogleman, M.T.** (3) 257–265
Goldberg, J.H., *see* **Lin, C.** (3) 233–242

Hallbeck, M.S. and **D.L. McMullin**, Maximal power grasp and three-jaw chuck pinch force as a function of wrist position, age, and glove type (3) 195–206
Hamrick, C.A., K.M. Cornelius, E.W. Rossi and **R.L. Unger**, Appropriate ingress/egress dimensions for mobile underground mining equipment (1) 13– 18
Hill, P.M.N., *see* **Dawson, N.J.** (4) 321–330
Hoffmann, E.R., W.A. Macdonald and **G.C. Almond**, Quantification of the cognitive difficulty of mail sorting (2) 83– 98

Keyserling, W.M., M. Brouwer and **B.A. Silverstein**, The effectiveness of a joint labor-management program in controlling awkward postures of the trunk, neck, and shoulders: Results of a field study (Case study) (1) 51– 65
Kolski, C. and **M. Duribreux**, Towards explicit consideration of time in cognitive engineering workbenches for "intelligent" assistance system design (2) 125–134
Kolski, C. and **P. Millot**, Problems in telemaintenance and decision aid criteria for telemaintenance system design (2) 99–106
Konz, S., *see* **Neese, R.** (4) 341–345
Kumar, S., *see* **Simmonds, M.J.** (2) 135–143
Kumar, S., *see* **Simmonds, M.J.** (2) 145–151

Leader, B.K., *see* **Goldberg, J.H.** (2) 107–123
Leamon, T.B., *see* **Myung, R.** (4) 313–319
Legg, S.J., *see* **Dawson, N.J.** (4) 321–330
Lemoine, M., *see* **Masset, D.** (4) 279–290
Lin, C., J.H. Goldberg and **A. Freivalds**, A non-exoskeleton optoelectric wrist goniometer (3) 233–242
Lindberg, M., K. Frisk-Kempe, H. Linderhed and **J. Eklund**, Musculoskeletal disorders, posture and EMG temporal pattern in fabric-seaming tasks (3) 267–276
Linderhed, H., A new dimension to amplitude analysis of EMG (3) 243–247
Linderhed, H., *see* **Lindberg, M.** (3) 267–276
Lortie, M., *see* **Authier, M.** (4) 331–340

Macdonald, W.A., *see* **Hoffmann, E.R.** (2) 83– 98
Malchaire, J., *see* **Masset, D.** (4) 279–290
Malmkvist, A.-K., *see* **Parenmark, G.** (4) 291–300
Marras, W.S., *see* **Schoenmarklin, R.W.** (3) 207–224

Masset, D., J. Malchaire and **M. Lemoine**, Static and dynamic characteristics of the trunk and history of low back pain (4) 279–290
McGlothlin, J.D., *see* **Tanaka, S.** (3) 181–193
McMullin, D.L., *see* **Hallbeck, M.S.** (3) 195–206
Miller, J.M., *see* **Frantz, J.P.** (1) 1– 12
Millot, P., *see* **Kolski, C.** (2) 99–106
Mital, A., S. Anand and **M. Nalgirkar**, Point representation versus solid representation of limb mass and its effect on the moment at a joint (Short communication) (1) 67– 71
Munipov, V.M., Ergonomics and labour protection in the USSR and the Commonwealth of Independent States – Historical landmarks and present status (Focus) (2) 153–161
Myung, R., J.L. Smith and **T.B. Leamon**, Subjective assessment of floor slipperiness (4) 313–319

Nalgirkar, M., *see* **Mital, A.** (1) 67– 71
Neese, R. and **S. Konz**, Vibrometry of industrial workers: A case study (4) 341–345

Örtengren, R., *see* **Parenmark, G.** (4) 291–300

Parenmark, G., A.-K. Malmkvist and **R. Örtengren**, Ergonomic moves in an engineering industry: Effects on sick leave frequency, labor turnover and productivity (4) 291–300
Park, K.S. and **B. Ahn**, A multiple logistic function for pilot trainee selection (4) 301–312
Putz-Anderson, V. and **T.L. Galinsky**, Psychophysically determined work durations for limiting shoulder girdle fatigue from elevated manual work (1) 19– 28

Rossi, E.W., *see* **Hamrick, C.A.** (1) 13– 18

Schoenmarklin, R.W. and **W.S. Marras**, Dynamic capabilities of the wrist joint in industrial workers (3) 207–224
Silverstein, B.A., *see* **Keyserling, W.M.** (1) 51– 65
Simmonds, M.J. and **S. Kumar**, Health care ergonomics. Part 1: The fundamental skill of palpation – A review and critique (2) 135–143
Simmonds, M.J. and **S. Kumar**, Health care ergonomics. Part II: Location of body structures by palpation – A reliability study (2) 145–151
Smith, J.L., *see* **Myung, R.** (4) 313–319
Smith, T.J., *see* **Duchon, J.C.** (1) 37– 49
St. John, D., F. Tayyari and **J.T. Emanuel**, Implementation of an ergonomics program: A case report (3) 249–256
Stuart-Buttle, C., *see* **Goldberg, J.H.** (2) 107–123

Tanaka, S. and **J.D. McGlothlin**, A conceptual quantitative model for prevention of work-related carpal tunnel syndrome (CTS) (3) 181–193
Tayyari, F. and **J.T. Emanuel**, Carpal tunnel syndrome: An ergonomics approach to its prevention (3) 173–179
Tayyari, F., *see* **St. John, D.** (3) 249–256

Unger, R.L., *see* **Hamrick, C.A.** (1) 13– 18

Wang, W., *see* **Bishu, R.R.** (3) 225–231
